--

Humility:

Humility is a virtue not much spoken about today.

This is the era in which self esteem is promoted, sometimes to the detriment of all other aspects of a person's development. Of course there is no conflict between true self esteem and the value of humility as taught by Jesus. The problem may be that nowadays humility might be seen as weakness, the humble person might be regarded as a pushover.

That would be a mistake and we only have to look to Jesus to see how big a mistake. The philosophy that might be right is capable of unleashing dreadful violence and of inflicting untold damage on human society. It represents the opposite worldview to that preached by Jesus and brings about no real change.

However, to live as gently and humbly as Jesus did is to commit oneself to a better world, armed only with a deep conviction that God is love.

We wish all the School Communities in Naas, Sallins and Two Mile House Parishes all the very best during the academic year ahead.

An educational system isn't worth a great deal if it teaches young people how to how to make a living but doesn't teach them how to make a life."
